Cost: For glossy paint- 3 -5 rs. Per sq. Feet & For tecture paint-30-40 rs per sq. feet

Why Choose Us

Hygienic & Healthy

The remarkable benefit of cow dung paint is that it is anti-bacterial, anti-fungal, odorless, and non-toxic, making it both harmless and pleasant for people.

Eco-Friendly

These eco-friendly paints do not contain harmful metals such as arsenic, mercury, chromium, chemicals or heavy lead, and cadmium.

Wide Range Of Colour

You can choose from over 1,000 colors to paint your dream house. Additionally, the paint application provides a uniform and sleek finish to the walls.

Made From Cow Dung

The main ingredient of Khadi India Prakritik Paint is cow dung. Hence, it's 100% eco-friendly

Cost Effective

A notable feature of these cow dung paints is that they are significantly cheaper compared to traditional chemical-based paints available in the market.

Natural Thermal Insulator

Khadi India Prakritik Paint acts as a natural thermal insulator. Applying this paint helps effectively control room temperature.
